Product Ratings

Luminous Efficacy	92 lm/W (DLW Color)
Wattage per Module	4.34 W (Max. 4.76W)
Input Current per Module	1.4 A
Ingress Protection	IP68 (Module) IP67 (Wire Connectors)
Operating Temperature	-40°C to +60°C (-40°F to +140°F)
L70 Lifetime	50,000 hours
Warranty	5 Year limited*

* Altering the product in any way voids the warranty.

Population Density Guide¹

Box Sign Depth (inch / mm)	Multiple Row (inch / mm)
5 / 125	12 / 305 ²
6 / 150	14 / 356 ³
7 / 180	16-18 / 406-457
8 / 200	18-24 / 457-610
9 / 230	21-24 / 533-610
10 / 250	20 / 508 ⁴

¹ Modules are spaced with wires at full stretch, unless noted otherwise.
7328 White Acrylic was used for testing the face light uniformity; other face materials may vary the module and row spacing to achieve the same face light uniformity and brightness.
² Modules' center to center spacing is at 12" / 305 mm
³ Modules' center to center spacing is at 14" / 356 mm
⁴ Module row spacing is reduced from value at a lower depth to maintain the acceptable face brightness

Applications

- Cabinet Signs
- Cloud Signs
- Accent Lighting

Luminous Intensity Distribution B3 Batwing Beam Pattern

System Wiring Diagram

System Component List

1. Class 2 constant current power supply 1.4A (PS0700-150W), dual output channels
2. 0-10V dimming control input
3. Jumper Cables between power supply and LED module string
4. BoxRayz® 400 LED modules
5. One-way plug-receptacle connectors
6. Endplug for closing the electrical connection loop

Plug-and-Play Interconnections

1. No more wire cutting during installation
 - Each LED module has its own set of connectors
 - Power supply, 18" and 36" jumper cables have matching connectors
2. Safe Electrical Interconnections
 - One-way connectors guarantee correct electrical connections
 - Waterproof, IP67 rating on all connector-to-wire packaging

1. These products are only suitable for connection to a Class 2 constant current power source.
2. These products are intended for use only when connected to a power source that complies with Class 2 voltage and energy limited circuit.
3. When these units are connected to a Class 2 circuit, they are not to draw a total wattage of greater than the secondary or output rating of the Class 2 supply.
4. These products may be secured in place in the end product by any means available.
5. These products are suitable for use in dry and damp locations.
Not suitable for submersed applications.
